Huzaifa Ajmal

■ huzaifaajmal012@gmail.com

Professional Summary

Passionate and detail-oriented BSCS graduate (2025) from University of Agriculture Faisalabad with one year of industry experience in front-end development. Skilled in modern web technologies and frameworks with a strong focus on creating professional, responsive, and user-friendly websites. Currently learning backend development with Express.js. Adept at problem-solving, teamwork, and continuous learning to deliver high-quality solutions.

Technical Skills

- Frontend: HTML, CSS, JavaScript, Bootstrap, React.js, Tailwind CSS
- Backend: Python (Beginner level), Express.js (Currently Learning)

Education

- Bachelor of Science in Computer Science (BSCS), University of Agriculture Faisalabad — 2021–2025
- Intermediate in Pre-Engineering, Punjab College — 2019–2020

Experience

D-Poxy Logics — Frontend Developer (1 Year)

- Developed and maintained responsive websites and applications using HTML, CSS, JavaScript, and React.js.
- Collaborated with cross-functional teams to improve UI/UX, ensuring smooth user experiences and optimized performance.

Projects

- **Weather App:** A visually appealing weather forecast app using JavaScript and OpenWeather API with live updates, search functionality, and intuitive design.
- **To-Do List:** A productivity-focused task management app with CRUD operations, smooth animations, and local storage integration for persistent data.
- **Quiz App:** Interactive quiz platform with real-time score tracking, randomized questions, and engaging user feedback system.
- **E-Commerce Website:** Complete online shopping solution built with React.js, CSS, and JavaScript — featuring product listings, cart functionality, and checkout simulation with a fully responsive design.
- **Educity Educational Website:** A modern and dynamic school website built using React.js and CSS showcasing academic programs, faculty details, and admission forms. Optimized for responsiveness and accessibility with a clean professional layout.
- **Tic-Tac-Toe Game:** Fun and interactive JavaScript game with real-time win detection, reset functionality, and a responsive interface suitable for all devices.
- **Static Websites:** Developed multiple modern React.js sites focusing on reusable components, clean UI, and smooth transitions for enhanced user experience.
- **Responsive Websites:** Crafted pixel-perfect, mobile-friendly websites using HTML, CSS, Bootstrap, and Tailwind CSS ensuring optimal performance on all devices.
